## TRAVEL IN SPACIOUS LUXURY AND REFINED COMFORT

The Gulfstream G550 is one of the world's great category-defining large cabin aircraft due to its ultra-long-range capability and short-range efficiency. This particular aircraft is elegantly appointed with the most discriminating traveler in mind. The G550 includes the best overall cabin in its class. Powered by two Rolls-Royce engines that provide the most thrust of any jet in its class, the Gulfstream G550 has a cruise range of 6,750 nautical miles. The G550 flies from Shanghai to Los Angeles or New York to Dubai nonstop at Mach 0.80. The trip from London to Tokyo or to Los Angeles is nonstop at Mach 0.85 with ability to travel without the delay of fueling stops or extra landing fees.

This G550's comfortable spaciousness and quiet ride is enhanced by extra soundproofing and sound-absorbing materials throughout the custom-built cabin. A highly modern PlaneView cockpit and EVS modernize the cockpit, while a seventh passenger window on each side of the aircraft distinguishes it from the prestigious GV.
